

New European Research Infrastructures in Cultural Heritage

Isabel Rz-Maribona, TECNALIA

9th ECTP Conference

The EU Construction Industry at the heart of the Green and Digital Transitions

HERITAGE  REGENERATION
AN ECTP INITIATIVE

WHY EUROPEAN RESEARCH INFRASTRUCTURES IN THE FIELD OF CULTURAL HERITAGE?

CULTURAL HERITAGE needs a multidisciplinary approach

Expensive techniques, used in a niche market

Transnational research collaboration

Need to progress in new (digital) fields

2 MAIN INITIATIVES

DT-TRANSFORMATIONS-20-2020:
***European Competence Centre for the preservation
and conservation of Monuments and Sites***

Digital technologies

National & European coordination

IPERION HS
Integrating Platforms for the European
Research Infrastructure ON Heritage
Science

INFRAIA-01-2018-2019:
Integrating Activities for Advanced Communities

Existing research infrastructures in cultural heritage

MS, European and International countries

Presented by

Francesco Taccetti

4CH Coordinator

Istituto Nazionale di Fisica Nucleare

IPERION HS

Integrating Platforms for the European
Research Infrastructure ON Heritage
Science

Paula Carmona

Coordinator PTI-PAIS

Instituto de Química Física Rocasolano

Spanish National Research Council (CSIC)
